Avg. Ranking Score

TABLE

Top University Rankings

Sortable leaderboard of top 25 universities by global ranking score, with rank, name, country and source (QS / THE) columns.

MAP

Global University Distribution

World choropleth showing university count by country; darker shade = more institutions represented (e.g. UK 199, USA 192, India 182).

BAR

Academic Reputation Analysis

Horizontal bar chart of average academic reputation score by country, ranked descending, top 15 shown.

LINE

University Performance Trends

Line chart tracking a selected university's global ranking score across ranking editions once multi-year data is added.

COMPARE

Institutional Comparison

Side-by-side comparison cards for two selected universities across global ranking score, research impact, faculty-to-student ratio, and reputation — driven by the University filter below.

Highest Impact Score

SCATTER

Publications Analysis

Scatter plot of research productivity index vs. research impact score, one point per university, colored by ranking source.

BAR

Citation Performance

Ranked bar chart of average research impact score by country, highlighting the current filter selection.

LINE

Research Productivity Trends

Trend line of research productivity index over ranking editions for the selected university or country.

TABLE

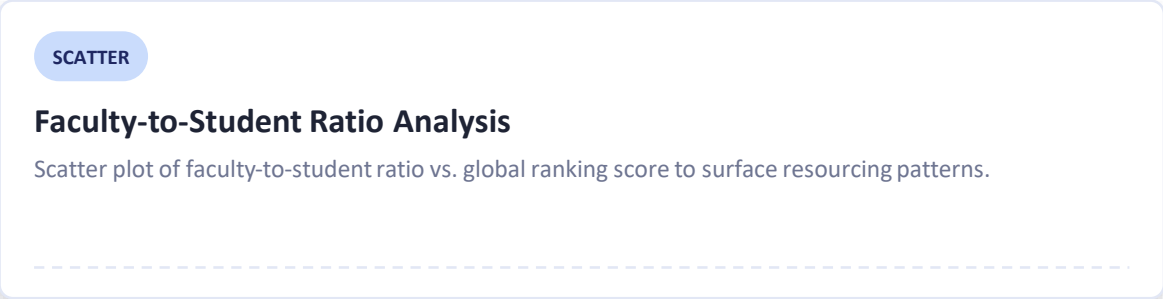

Top Research Institutions

Leaderboard of the top 15 universities by research impact score, with research productivity index shown alongside.

COMPARE

Research Impact Comparison

Two-university comparison of research impact score and research productivity index, updated live from the University filter.

BAR

Country Ranking Comparison

Bar chart of average global ranking score by country, sorted descending, filterable by ranking source.

RADAR

Education Performance Benchmarking

Radar chart comparing two countries across ranking score, research impact, reputation and student diversity.

MAP

Regional Education Trends

Choropleth of average research productivity index by region/continent.

TABLE

Top Performing Countries

Ranked table of the top 15 countries by average global ranking score, with university count per country.

SELECT

Country A

Selected via the Country filter — all KPI cards and charts above recalculate to this country's universities.

VS

SELECT

Country B

Second selection for side-by-side benchmarking against Country A across every KPI on this page.

Filters & Navigation

OVERVIEW

RESEARCH

STUDENTS

COUNTRIES

Global Filters

Ranking Source

QS / THE toggle — applies to every chart and KPI on all four dashboards.

Country

Single or multi-select from 134 countries; drives maps, bars and the country comparison view.

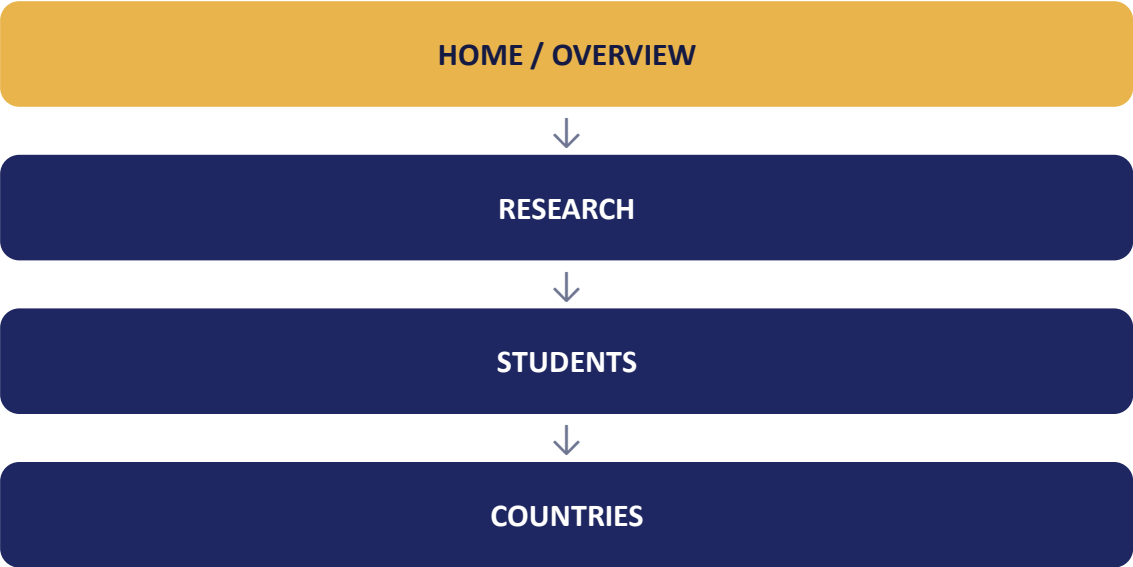

University

Type-ahead search across 2,958 institutions; drives the leaderboard and comparison cards.

Filters live in the persistent footer bar on every dashboard — shown here as it will appear in Tableau.

Navigation Flow

Each tab is a persistent top-nav pill (see header on every dashboard). Clicking a pill navigates to that dashboard while carrying the active filter state forward.

Dashboard Actions

Filter Action

Select a university

↓ *Other charts filter to that university*

Highlight Action

Select a university / country

↓ *Corresponding data becomes highlighted*

Navigation Action

Click a nav pill (e.g. Research)

↓ *Jumps to the Research Analytics dashboard*
